

NEURAL INTERFACES 2021: THE NANS-NIC JOINT MEETING

WHERE SCIENCE MEETS INNOVATION

June 25-26, 2021 | Virtual

COMMERCIAL SUPPORT FORM

The Neural Interfaces Conference (NIC) Steering Committee is partnering with the North American Neuromodulation Society (NANS) to produce a virtual meeting on June 25 and 26, 2021. This Joint Meeting is envisioned as a forum where scientists, engineers, and clinicians develop solutions for key issues to unlock the true promise of neural interfaces to improve patient health.

We invite you to get involved through a variety of support opportunities. View the [NANS-NIC exhibit page](#) for more information on what's included with each package.

COMPANY-SUPPORTED FELLOWSHIP \$1,500

A major goal of the meeting is to take advantage of the virtual format to be more inclusive than ever for women and other diverse and disadvantaged students who might not otherwise participate in scientific meetings like Neural Interfaces. We strongly encourage each corporate meeting sponsor to fund 10 company-named fellowships. Sponsored students will receive a certificate featuring the company name and logo (if desired) and the named fellowship award. Sponsors are welcome to work with our fellowship subcommittee to collaborate on the selection of their awardees.
