

**STOP!**

**PLEASE READ**

**before entering**

# For Your Safety:

1. Please Refrain from Touching Anything in the office other than the chair that you are seated on or the pen/paper that have been handed to you. This includes staff, countertops, door handles, computers and other equipment. The medical assistants will do this for you.
2. If you need to use the restroom, please notify one of the staff prior to use because we will need to wipe it down after you leave. Any family members must use the hallway bathroom outside the waiting area.
3. If you have been sneezing, coughing, feeling unwell, have had fever (or been exposed to anyone with these symptoms) in the past 14 days, DO NOT enter the office.
4. If you are over the age of 70, have lung disease, heart disease, diabetes, high blood pressure, or are immunosuppressed, you are at increased risk from a COVID-19 infection. Please consider changing your appointment to telemedicine if you do not require a procedure.

If you have any questions or would like to schedule a telemedicine visit over the phone/computer, please call: (XXX) XXX-XXXX.
